

Mayor Hayes offered congratulations to Township Elevator Sub-Code Official Thomas Hendrix, who was recently appointed to the NJ Elevator Safety Sub-Code Committee. The NJ Elevator Sub-Code Committee reviews suggested code changes and make new code change suggestions. Mr. Hendrix was recommended to the board because of his expertise, integrity, and honesty. All these qualities are brought to his inspections here in Bridgewater which in turn is cost-effective for our non-residential clients and provides them with safer elevator devices. The quality of inspection also protects the residents of Bridgewater as they use elevator devices.
